ABOUT ME

I am a passionate UI/UX designer with a background in web design and frontend development. After working as a Senior Web Designer, I transitioned to UI/UX design to focus on creating digital experiences that are both effective and user-friendly. Recently, I completed a Product Design Foundation course, where I combined technical expertise with creative design thinking to build solutions that are both visually appealing and user-centered.

EXPERIENCE

Web Developer
Jan 2018 - Dec 2018

Apex IT Development Co.,Ltd
- Building Website using HTML, CSS, Bootstrap and PHP.
- Requirement collection and analysis, design and timeline for projects.

Web Developer
Jan 2019 - May 2019

CYA Co.,Ltd
- Building Web Application with Bootstrap, PHP and Angular.
- Designed and built a Gym Management System project.
- Created user-friendly documentation for clients.

Frontend Developer
June 2019 - November 2019

Bingo World Co.,Ltd
- Developed Frontend application features with Bootstrap and Angular.
- Collaborated with backend team and designers to collectively determine frontend development strategies.
- Created and developed a direct sales delivery project.

Senior Web Designer
Feb 2020 - Jan 2024

Startin Point Pte Ltd
- Conceptualized and implemented frontend application features using a combination of HTML, CSS, Bootstrap, JavaScript, and Angular.
- Utilized Adobe XD, Figma, and Marvel to generate design assets.
- Collaborated with backend team to ideate and sketch out the design.
- Developed comprehensive design layouts for entire projects and construct corresponding prototypes.
- Achieved optimal convenience and responsiveness for all devices and web browsers.
- Founded and fixed UI issues across the whole project, and created detailed documentation.
- Executed various projects including UOBKH Account Opening System, CIMB Account Opening System, Wordwhiz Game Show System, Onboard Account, LTS Amendment, SBS Transit and enhancement of generated PDF UI.
- Ensured projects were successfully completed and stayed within deadlines.
- Adapting to new technologies for increased productivity.
